

Hygienic Enclosures

Increased Cleanliness • Time Savings

Why Hygienic Enclosures?

- High Pressure Washing demands look for IP69/IP69K protection
- Water and aggressive cleaning agents need Type 4X stainless steel corrosion resistance

Easy to Clean

- No safe harbor for bacteria – easily accessible by washer
- Sloped surfaces – drain away water
- Extra smooth #4 Dairy Finish
- Removable gasket – clean/replace
- Blue gasket – easier to spot contaminants

Design Elements

- Extra smooth, #4 dairy finish (304 stainless steel) on all exterior surfaces
- 5° slope on 4 sides
- Sloped cover edges
- Junction boxes with NEMA panel provision

- Hex head bolts with blue silicone washer
- Blue silicone gasket beyond door edges

- One piece, food-grade silicone gasket
- Gasket can be removed for cleaning or replacement

Hygienic Enclosures - Type 4X, IP69K

Junction Box and Pushbutton Enclosures

Key Product Features

- Sloped on 4 sides prevent water from resting on top regardless of enclosure orientation.
- Hex head design screws and door-edge mounted silicone gasket allow for easy cleaning in hose-down environments.
- Silicone gasket mounts around entire door edge allowing for efficient cleaning in hygienic environments.
- Gasket can be easily removed and re-installed for cleaning or replacement. Additional silicone gaskets can be ordered separately.
- Approvals - cULus Type 4X, IP69, IP69K, NSF/ANSI 169 - Splash Zone
