- Splitter trough and box offered with screw cover (NEMA 4,12) and a provision for padlocking (NEMA 1)

PULL BOXES

Grounding screws included

1. Concentric knockouts

2. No knockouts

The 1100 DF series are used as junction or pull boxes. These boxes are suitable for surface mounting with the standard screw cover or for flush mounting using either of the two optional covers. Boxes and covers are made of high quality 16 GA or 14GA steel. Four internal mounting holes, bonding screws and attachments are provided. All four sides have concentric knockouts, except when noted. These boxes are also available without knockouts. Enclosures are finished with ANSI/ASA 61 smooth gray heat fused powder paint, electrostatically applied on a pretreated.

#1100MC

- Mounting holes are provided
- Door are secured by a quarter-turn mechanism and tamper-resistant hinge
- Finished with heat fused powder paint

NEMA 1 UTILITY ENCLOSURES

Each enclosure comes complete with a 14 GA galvanized **inner panel**, which mounts on welded nuts.

- The 5100 series is EXM's standard NEMA 1 offering for applications that are not required to be oil, water, and dust–tight. It comes standard with an inner panel.

- The 1100 series is a NEMA 1 rated enclosure that also comes standard with an inner panel. It is a price–friendly alternative to the 5100 for applications that do not require as sturdy a build.
