Cable Clamps for Wire Cable Trays

Focusing on the high hygiene and safety standards of the food industry, SILTEC A/S has developed a new series of cable clamps for wide cable trays. The cable clamps are made of stainless Aisi 316 steel, allowing for the mounting and securing of cables in the cable tray. This also enables thorough cleaning and adjustments to cable routing.

Cable Clamps for Wide Cable Trays

This also enables thorough cleaning and adjustments to cable routing.

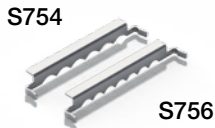

With a wide range of cable clamps, we aim to meet the needs of the most popular cable trays. The table shows which cable trays each cable clamp fits and the wire and cable dimensions (diameter) they can be used for.

Installation

The cable clamps are very easy to install, as they can be "clicked" into place around the transverse wires in the cable tray.

For additional security in holding the cables, the cable clamp can be locked around the wire.
